SOULFUL PHOTOGRAPHY & VISUAL ALCHEMY

for retreats, ceremonies, and purpose-driven brands

photography & direction by mycelia jane | mj design co.

a note from mycelia,

hi, beautiful.

for over a decade, i've been supporting soulful women, facilitators, and creative entrepreneurs in building brands that breathe—visually, energetically, and emotionally. *my approach to photography is rooted in presence, intuition, and reverence for the sacred work you're here to share.*

i work with intentional creators and soulful brands in many forms—offering imagery that honors energy, story, and essence.

→ **wellness retreats + immersive gatherings**

→ **ceremony & workshop documentation**

→ **brand-specific photoshoots**

→ **lifestyle imagery for offerings & services**

→ **product or item photography with intention**

→ **creative content for launches, websites, and social platforms**

whether i'm behind the lens at a retreat, witnessing ceremony, or capturing the quiet ritual of your offering—*my intention is to hold space and translate essence into visual memory.*

this is not just content.

this is visual alchemy.

this is your story, remembered.

if you feel the resonance, i'd be honored to explore how we might create together.
